

November 8, 2007

Manitex introduced its latest S-series boom truck at the 2007 ICUEE show held in Louisville Kentucky in October. The 30112S is the newest addition to Manitex's complete offering of truck mounted taxi cranes packed with many features found on larger cranes:

- 112' main boom with a 46' 2-section jib option offers our highest tip height.
- Self-Lubricating Boom Slider Pads
- ROCSolid Outriggers feature a radio remote controller for ease of crane set-up.
- 22' Aluminum outrigger floats.
- Continuous rotation feature and a 360° work area.
- Mentor full display LMI system featuring a radio anti-two-block system.
- Ride around operator control station.
- Hydraulic pilot crane controls for the smoothest operating experience.
- Rotation hoist drum indicator.
- Fully enclosed cab with diesel heater.
- Hydraulic air conditioner option for crane cab.
- Manitex UPTime 24/7 Comprehensive Support
